

The Wannamaker North Trail offers nearly 15 miles of thrilling natural and man-made features for hikers, runners and cyclists. Casual cyclists should know that the terrain contains obstacles, hazards, tight curves, and elevation changes. More experienced cyclists will enjoy traveling the northeast section of the trail, following along and over-top an elevated ridge.

For pass and program information or to report unsafe trail conditions please call **843-795-4386** or visit: **www.ccprc.com**
