

## Early Morning Bird Walk Caw Caw Interpretive Center

This 1046 acre site was once part of several rice plantations that flourished in the late 1700's and early 1800's. Landscape alterations from this period contribute to the site's current habitat diversity and is a main factor behind the wide variety of wildlife seen at the park.

This bird checklist is the result of many bird walks throughout the park since 1985. Currently, 274 bird species have been recorded at Caw Caw Interpretive Center. Last edited 04/15/2023.

Guided bird walks occur at 8:30am every Wednesday and Saturday mornings at Caw Caw Interpretive Center. Pre-registration required.
